

One day me, and my family went out for dinner. It was fun. It was me, my mom, my great grandma, my aunt, and my cousin. The boys stayed home. It was girls night. The boys did not have fun at all. The girls did have fun!

Girls night is the best night for girls! We got to eat a lot of different foods. My favorite thing that we had, were smoothies. There were all kinds including banana, strawberry, or both mixed. When we left we saw a playground in the back of the diner. We did not get to play though because it was time to go.

We drove home and when we arrived my grandma gave us all presents. After we opened the presents we played a little longer. It was then time for everyone to go home.

I loved girls night. I hope we have girls night again with the same people soon.
